To Whom It May Concern:

I am writing to you to request that my doctor, Glenn S. Chapman III D.O., be added to your list of providers. I have been to several doctors over the years and have finally found a doctor who cares about fixing my pain than putting me on pills. The problem is that he is not a provider for Aetna, so I cannot afford to pay cash to see him and still pay premiums to Aetna.

From speaking with him, I understand that you have closed your panels and are not allowing new doctors on your plan. He has applied to be a provider for Aetna in the past. As one of your members, I'm asking you to reconsider. He is a very talented, caring physician, who I believe would save you money with his conservative, efficient, and effective care. He is not the type of doctor that just throws an MRI or a medication at every symptom. He is truly dedicated to helping patients avoid surgery AND narcotic medication and helping them return to optimal function.

Unfortunately, if he continues to be unable to become a provider for Aetna, I will be forced during the next open enrollment to switch to an insurance that he is a provider for.

I'm sure I am not alone. Please reconsider adding Dr. Chapman to your list of providers.

Sincerely,
